## Introduction

*Spanish is one of the most spoken languages in the world. Therefore it is an advantage for Malaysian students to learn Spanish because its pronunciation is similar to Bahasa Malaysia which is the national language of Malaysia.*

*This book is designed for students whose native language is not Spanish. Thus, helping them to learn basic Spanish. This book also covers basic grammar, vocabulary, verb conjugation, comprehension, dialogues, etc. Furthermore, it contains exercises that are believed to help fresh learners to better understand the language.*

*The UMP 1312 subject provides the skills of learning the language through basic expressions, vocabularies and constructing simple sentences in everyday life. Hence, studying Spanish language with patience and passion will be a valuable tool that serve the future when you least expected.*

*Last but not least I am thankful to Allah the Most Merciful who gave me courage to complete this book successfully. My deepest appreciation goes to my family for their endless support and blessings and to all my friends and my lecturers.*
